CAREER OBJECTIVE

Enthusiastic Information Technology graduate with a CGPA of 8.2 and hands-on experience in Full Stack Development using React.js, JavaScript, Python, Django, MySQL, and MongoDB. Seeking an entry-level Software Developer position to apply my technical skills, contribute to innovative projects, and grow as a software professional.

INTERNSHIP

Professional Training – Besant Technologies, Chennai

Completed Python Full Stack Development training and built web applications using React.js, Python, MySQL, and MongoDB. Gained practical knowledge in frontend, backend, and database development.

TECHNICAL SKILLS

- **HTML5** – Block Elements, Inline Elements, Forms, Semantic HTML, Multimedia
 - **CSS3 & Bootstrap** – Selectors, Layouts, Styling, Transitions, Responsive Design
 - **JavaScript (ES6+)** – Functions, Arrays, Operators, Loops, Objects, DOM Manipulation
 - **React.js** – JSX, Components, State, Props, Hooks, Component Lifecycle
 - **Vue.js** – Components, Directives (v-if, v-for), Vue CLI, Basic State Management
 - **Python** – Basic Programming, API Integration
 - **Database** - SQL (MySQL), MongoDB
 - **Tools** - Git, GitHub, VS Code, Postman
-

PROJECT

AI-Based Placement Prediction System - React.js, Python, Django, Machine Learning, NLP, LLM

- Developed an AI-powered web application to predict student placement opportunities based on academic and skill data.
- Implemented Machine Learning algorithms to analyze student profiles and generate placement predictions.
- Built a responsive frontend using React.js and developed backend services using Python and Django.
- Integrated NLP techniques and an LLM-powered chatbot to provide personalized career guidance and placement support.

Smart Attendance Management System - Vue.js, JavaScript, HTML, CSS

- Designed and developed a responsive attendance management application using Vue.js and JavaScript.
 - Automated attendance recording and tracking, reducing manual data management efforts.
 - Implemented component-based architecture, data binding, and dynamic rendering using Vue.js.
 - Built an intuitive dashboard for viewing attendance records and generating attendance summaries.
